## **What is the vision for opportunities and thrive experiences at Stamford Green?**

- The best cultural education can change a young person's sense of the wider world around them, opening up possibilities for their future that may have previously seemed outside of their grasp. What's more, the study of specific cultural subjects, such as art and design, dance, drama, film studies and music has direct educational benefits for children, enabling young people to gain valuable knowledge and skills that stay with them for the rest of their lives – Darren Henley, DfE Cultural Education July 2013.
- To provide every child with enrichment opportunities to excel, grow and foster a love of learning through:
  - i. Developing their knowledge – we will teach the children about the best of what has been created – great literature, art, architecture, music and drama.
  - ii. Developing their analytical and critical faculties – we will provide opportunities for the children to think both creatively and critically and to express their view articulately.
  - iii. Develop their skills – we will plan and create opportunities and experiences for the children to participate in and create so that they thrive.
- Cumulatively, our enrichment activities alongside our school values, will prepare the children for life, giving them the confidence, knowledge and skills to thrive.

## **Our enrichment curriculum is brought to life through our seven commitments:**

### **HAPPINESS**

Our opportunities and thrive experiences enhance the curriculum for the children and we aim to make sure that the children's happiness is at the core of everything we do. We pledge to give every child a wide range of experiences that we hope they will enjoy, as well as promoting positive relationships through our values and beliefs. We believe children learn best when they are happy, engaged and motivated.

### **INSPIRING**

We aim to inspire the children by giving them a wide range of different opportunities and experiences, including a chance to experience things they may not have done before. Children will be inspired through learning about how to create their own business, by performing to a large audience or sleeping amongst the canons on a boat for the night. It is our aim that these experiences inspire the children to pursue these opportunities later on in life.

### **LEARNING**

By offering a broad and balanced curriculum, filled with a range of different experiences, both inside and outside of the classroom, we aim to foster a love of learning that our children will carry with them throughout their lives. Our opportunities and thrive experiences have been planned to enhance the curriculum, bringing it to life so that meaningful links can be made. Our thrive experiences and opportunities also include key life skills that we want our children to be to do, such as tying a shoe lace, emergency first aid and telling the time. We have prioritised two additional online safety opportunities to complement our computing and PSHE curriculum as we want to ensure that the children know how to safeguard and look after each other as well as themselves. These life skills are vitally important and will stay with the children beyond their primary school years.

## TOGETHERNESS

By providing the children with a range of different activities and experiences they can work as part of a team or within a community, we aim to develop this core value and promote a love of collaboration. As adults we understand the importance of collaboration and feel it's important to instil this into our pupils, too. Our children in Year 1 to 6 come together every Monday, in mixed age classes, to engage in activities led by our Year 6 pupils. The activities focus on issues which include awareness raising of specific topics within diversity and inclusion. As well as this, we invite local senior citizens in to enjoy coffee with our School Councillors. This helps to build positive relationships within our community. Our sporting events allow the children to know what it is like to work as part of a team and demonstrate our school values e.g. being a good sportsman.

## VALUES

As educators our values are at the heart of everything we do and we ensure that the school's twenty two values and the British values are promoted throughout school life. We help children foster values such as kindness, resilience and effort by providing a range of different experiences. These include things like raising chicks (from eggs) in Year 2 and writing cards to senior citizens in care homes, in all year groups. During December, in every class, there is a random act of kindness calendar, teaching the children that sometimes it is the small things that can brighten a person's day. Our school values ensure we reflect, demonstrate empathy and care for others through our community fundraising activities.

## AMBITION

Our residential trips help our pupils be ambitious. Staying away from home by taking part in the Year 2 sleepover helps our children prepare for longer residential in Years 4 and 6. During these residential children have the opportunity to be ambitious by climbing huge walls, swinging from giant swings and taking a leap of faith on the trapeze. We are keen advocates of sport and engage in a range of different competitive tournaments throughout all year groups, where both intra and inter events take place. In addition to this, we also take part in borough sporting events that encourage participation. We also offer opportunities to perform, such as our Year 5 Young Voices O2 concert, the Epsom and Ewell Schools' Music Festival and the Epsom and Ewell Schools' Dance Festival as well as our year group performing opportunities outlined in our Music Compendium. Every year the children create artwork for a school exhibition and we also participate in a borough art festival/exhibition.

## ACHIEVEMENT

Children are constantly praised on their achievements and efforts. As a school, we provide lots of opportunities for our pupils to celebrate their success alongside their parents / carers and teaching staff. Parents / carers are regularly invited in for Class Open Time, to look through childrens' books and share successes. We endeavour to give the children lots of opportunities to feel a sense of achievement, whether this is swimming a length of the pool in Year 5 or rearing frogs from tadpoles in Year 1.
