Surrey Paediatrics Parenting Service

The Paediatrics Parenting Support Service is offering support to parents and carers living in Surrey who are exploring the possibility that their child, aged 5 or younger, may be neurodivergent, exhibiting challenging or avoidant behaviours, or seeking help to improve their child's social and emotional skills.

Our practitioners provide a 6-week group intervention, either online or face-to-face in the community, to empower families with strategies and resources for their child's development and well-being.

You can find out more information and how to refer into the service at www.Barnardos.org.uk or by scanning the below QR code:
