

Stamford Green

Primary School and Nursery

Dear Parents/Carers,

Club Room Weekly Information – w/b 13.7.26

Thank you

We could not be more proud of the effort, resilience and growth we have seen this year.

The children should be so proud of their achievements. It has been a pleasure teaching them all this year and seeing them shine.

Club Room Treat

On Monday 20 July, we will have a Club Room treat of a film and popcorn.

If your children want to bring in a small snack for themselves for the film they are more than welcome to.

There are plenty of events happening this summer!

Have a look to see what is going on. Some events are for children and others are for parents/carers.

Zones of Regulation

This week we will be focusing on the Blue Zone, recognising that as we reach the end of the school year, we may feel more tired than usual and may also experience feelings of sadness about upcoming changes. Children will have opportunities to reflect on their achievements, celebrate their successes, and think about the positive memories they have made throughout the year. We will encourage gratitude and help children recognise all that they have achieved and the people who have supported them along the way.

Values

As we approach the end of the school year, we will be focusing on self-belief. Children will reflect on how much they have grown, what they have achieved, and the challenges they have overcome. With some pupils preparing to move to new settings and the summer holidays ahead, we will encourage children to recognise their strengths, celebrate their successes, and understand that they can achieve great things both now and in the future.

Learning

This week:

In Key Stage 1, we will continue with bespoke maths and English activities tailored to individual needs. Children will also enjoy a range of games and teamwork activities, helping them strengthen friendships and make the most of their time together as the school year ends.

Alongside this, they will continue to learn about life cycles and exploring changes in our bodies, helping them develop an understanding of growth and change. We will continue to support children with transition activities and opportunities to reflect on their achievements and build confidence for the year ahead.

In Key Stage 2, we will continue working on individual maths, English and Science activities. Pupils will also take part in games and teamwork activities, encouraging collaboration, resilience and enjoyment of spending time together.

In PSHE, children continue learning about puberty and the changes that occur as they grow older, with discussions delivered in a sensitive and age-appropriate way. We will continue to support children with transition activities and opportunities to share information about themselves with their new teachers, helping them feel confident and prepared for the move into September.

We wish you all a fantastic summer ahead.

Miss Burgess and Mrs Thomas
