

Stamford Green

Primary School and Nursery

7 September 2026

Dear Parents/Carers,

Club Room Weekly Information – w/b 07.09.2026

Learning about each other

We have spoken lots about the different student and staff interests and hobbies.

We loved having a class discussion about our favourite foods!

Settling In

All the students have settled back so well - getting familiar with routines again, and building relationships with new members of staff.

Equipment

Please could you make sure that the students have a raincoat, a hat and a water bottle with them so we can be prepared for all weather!

Arts and Crafts

This week we have done lots of arts and crafts, from painting to Hama Beads. We love seeing the children's creative minds flourish! We will continue to complete lots of colouring, drawings and different artistic adventures throughout the term.

Weekly Value

We will be doing some work with the students on Resilience, a very important value at this time of the academic year. At times new routines, new faces and new challenges can be tricky, but we have already seen some amazing resilience, and we will continue to work on ways that our students can support themselves and seek support, to achieve the best that they can. Resilience will grow in those small moments, and keep building and building!

Zones of Regulation

In the Club Room this week, we will be focusing on the green zone, thinking about what makes us happy, and different things that we can do to support ourselves, be in the green zone, and feel the associated feelings.

Learning

For our KS1 children, they will complete some maths tasks, involving counting and number formation. We will also be completing some cutting and sticking tasks, focusing on developing their fine motor skills.

For our KS2 children, they will revisit and practise their times tables, whilst also completing some writing tasks about their new book of focus this half-term!

Have a lovely week!

Mrs Smith, Mr Adams and Mrs Thomas
