m:tech

Tomorrow's Music Makers...Today

July 2026

Dear Parent / Guardian,

Re: M:Tech Music Technology at **Stamford Green Primary School**

I am delighted to introduce M:Tech, the exciting new music technology course we are launching in Autumn Term 2026 for KS2 at Stamford Green and hope your child was excited by our presentation at school.

M:Tech is a small-group music technology course where children create original music using professional software, working on projects such as movie trailers, TV adverts and cartoons. Each term, learners complete a new project which parents can listen to online via MyMTech, our home learning platform.

We are also proud to be the new Creative Partner of ABRSM. From September, every child enrolled in M:Tech will automatically work towards a new Creative Musicianship qualification. Seamlessly embedded within our dynamic course, this exam-free, no-pressure award recognises and celebrates the musical skills children naturally develop through their M:Tech lessons.

Lessons run like group instrumental lessons and will be held after school, costing £18.70 per session.

To register interest for Autumn 2026, please visit: **www.mtechonline.co.uk**

Registering your interest does not commit you to a place. It helps us finalise arrangements with the school and, once confirmed, places will be offered on a first come, first served basis.

If you have any questions, please contact us on 01483 578114 or office@mtechonline.co.uk.

Best wishes,

Jack Hardman

Jack Hardman

Director of Music, M:Tech
